CAREER FAIR TIPS

Polish up your resume, tune up your elevator speech and put your best foot forward to be successful at today’s event.

Take Your Time
A career fair is a rare opportunity to meet people face-to-face without an appointment. Take full advantage. Plan to stick around. Talk to as many company representatives as possible. Collect information on every employer that interests you.

Make a Good First Impression
- Display a positive, can-do attitude
- Smile, make eye contact, and give a firm handshake
- Be courteous, polite and likable
- Show that you are willing and motivated to learn and grow

Know Yourself and Your Skills
- Develop a 20-second elevator speech that includes your work background, related skills and training and areas of interest
- End your introduction with a question for the recruiter, to help start a conversation
- Practice delivering your introduction slowly and clearly, with enthusiasm and a smile
- Offer a copy of your resume or business card
- Know the schedules that you’re able to work

Ask Questions
- About prospective jobs
- About the application process
- Get the names of key contact personnel within targeted companies
- Take notes
- Ask when an interview might be possible
- Establish a follow-up time to contact employers of interest

Don’t Ask About Salary or Benefits at the Fair
- Focus on finding out more about the company and prospective jobs
- Establish how you would be an asset to the company

Follow Up with Companies
- Send a cover letter and another copy of your resume
- Tailor the documents to reflect your conversation with the recruiter
- Double-check spelling, especially of names
- Being organized, prepared, personable and confident will help you be memorable for all the right reasons
