

MnDOT-DEED

Highway Construction Cement Mason Local 633 JATC Training

TRAINING FOR QUALIFIED INDIVIDUALS

CEMENT MASON TRAINING:

- This 240-hour, 6-week course is designed to provide pre-apprentice highway construction training that prepares individuals for employment in the Highway Construction industry. This course includes a combination of curriculum-based classroom instruction, hands-on use of tools and equipment, classroom lecture, videos and incorporation of industry experts.

Classes begin in 2024!
